**SURROUNDS COMMITTEE:** The BBC surrounds committee have been steadily working throughout the winter months. Their focus has been to lift the gardens appearance, prune the border plants and lift the areas around the greens to a standard that we can all be proud of.

This has entailed hours of voluntary work by a small group of club members to move and spread mountains of mulch, pruning, weeding, cleaning, painting and spreading gravel along the Guilford Rd wall, erecting the sponsor's signage and general tidy-ups that have helped where improvements were required.

Special thanks to Mick Ryan for donating the paint and then painting the roadside fence on A Green! Hutchy and Bob for their work with the gravel and Jake for his help too.

This is a work in progress and things will be continued to be worked on when needed.

This group know who they are and we, the members of BBC thank them for this work which would not have been done without them.

Also a new hot water system has been installed by the club to provide a larger storage of hot water for the dishwasher and listening to feedback from the kitchen staff it has improved the turnaround time of wash cycles and is doing a great job.

**Basso is in the Men's Premier League for the first time in over 15 years... can we hold it? We will need every player in every grade doing their best for the club men and women. Remember that Pennants is about representing the Bassendean Bowling Club, you may have gripes and concerns and by all means speak to your selectors, however, this season it's all hands on deck as we try to regain 2<sup>nd</sup> division (ladies and men's), 4<sup>th</sup> division(men's) and hold 1<sup>st</sup>... your contributions are vital. Perseverance, performance and practice create opportunity.**

**GREENS COMMITTEE:** Jake our greenkeeper gave his notice in October, and has been replaced. Remember to follow the greenkeepers instructions, which are on the boards near the greens, roll up on the pegs when asked and always wear the correct footwear.

**Each player in a pennant side has a role as follows:**

**LEAD:** Is the person who bowls the Jack, and the first two bowls. Their role is to get their bowls as close as possible to the Jack. The classic phrase for good leading is, "one on the Jack and one behind",

**SECOND:** Plays also to get their bowls close to the Jack or to play the opponents bowls out of position. Often they will follow the Skippers instructions in order to "build" the head (head refers to the group of bowls near the jack)

**THIRD:** Often has to play shots that travel between or around opponents bowls, sometimes they attack the head. The third also controls the head once the Skipper is on the mat.

**SKIPPER:** Is the bowler who instructs the other team members where to bowl and what shots to play. The Skipper is the last one to bowl in the team, and has the most opposition bowls to navigate in order to score. The skipper also keeps the scorecard and scoreboard up to date.
